

Quilty as Charged

GUILTY OF BUYING MORE FABRIC

A free, offline quilting toolkit for Android. Paint a quilt on a grid and the cutting chart writes itself — squares, width-of-fabric strips and yardage for every fabric.

At a glance

App	Quilty as Charged
Package	com.quiltyascharged.app
Version	1.0.1
Platform	Android 5.1 (API 22) and above
Price	Free — no ads, no in-app purchases, no subscription
Category	Art & Design / House & Home
Privacy	No account, no analytics, no data collection. Designs stay on the device.
Contact	REPLACE_WITH_YOUR_EMAIL
Store listing	REPLACE_WITH_PLAY_URL

The story

Quilters spend a surprising amount of time doing arithmetic. How many 3½" squares come out of a width of fabric? How much backing for a queen? What size do I cut the squares for a four-inch flying goose? It is the least interesting part of a craft that is otherwise entirely about colour and texture, and it is usually done on the back of an envelope in a fabric shop.

Quilty as Charged moves that arithmetic into your pocket. Its centrepiece is a pixel designer: paint a quilt square by square on a grid up to 24 × 24, using twelve named fabrics, with mirror and four-way medallion symmetry to keep things even. Underneath the grid, a cutting chart updates as you paint — how many squares of each fabric, how many width-of-fabric strips that needs, and how much yardage to buy, rounded up to the nearest eighth the way it is sold.

Around that sit the calculations quilters repeat forever: half-square and quarter-square triangles, no-waste flying geese, borders, sashing, binding, backing panels, standard quilt and batting sizes, and a cheat sheet for the fat-quarter-to-honey-bun end of the fabric shop. There is a colour studio with a wheel, harmonies and saveable palettes you can pass to a friend as a short text code.

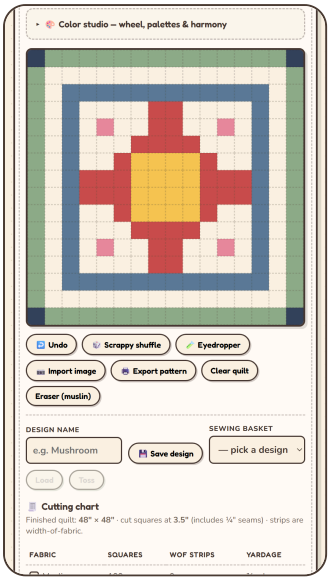

The whole app is a single self-contained page in a native Android shell. Nothing is uploaded, nothing is tracked, and every feature works with the aeroplane mode on.

Features

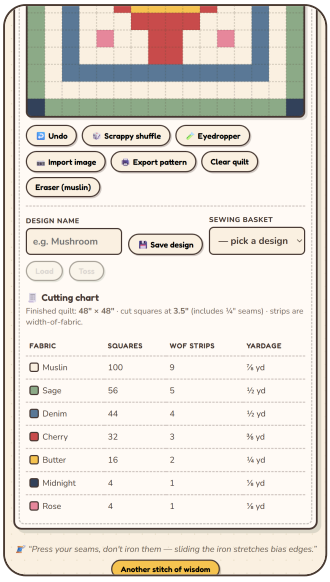

- **Pixel quilt designer** — grids 8 × 8 to 24 × 24, twelve fabrics, four symmetry modes
- **Live cutting chart** — squares, WOF strips and ⅛-yard yardage per fabric
- **Seven block presets** — nine patch, checkerboard, sawtooth star, pinwheel, hourglass, log cabin, diamond medallion
- **Photo import** — matches an image to your fabric palette on device
- **Sewing Basket** — save, reload and edit designs
- **Colour studio** — wheel, lightness, harmonies, five preset palettes, shareable custom palettes
- **Patch math** — cut size, square count, yardage, estimated cost
- **Triangle math** — HSTs, QSTs, no-waste flying geese
- **Backing & binding** — strips, panels, borders, sashing
- **Reference** — quilt and batting sizes, pre-cut cheat sheet, nine quilting tips
- **Pattern export** — printable grid + cutting list via the Android share sheet

Assumptions the maths uses: 42" usable width of fabric · ¼" seam allowance on every side (cut size = finished + ½") · yardage rounded up to the nearest ⅛ yard · 4" backing overage per side · 12" extra binding for corners and joins.

Brand

Typefaces	Fredoka (headings) · Nunito (body)
Muslin	#FAF3E3 — the background of everything
Thread	#4A3B32 — text, borders and the offset shadow
Cherry	#C94F4F
Butter	#F6C453
Rose	#E8879B
Sage	#8FAE8B

Denim	#5B7B9A
Name	Always "Quilty as Charged" — capital Q and C, lower-case "as". Never "Quilty As Charged".
Tagline	"guilty of buying more fabric" — set in lower case, letter-spaced, in Cherry

Assets in this kit

- **play-store/** — 512 icon, 1024 × 500 feature graphic, ten framed phone screenshots (1080 × 1920), ten unframed captures, two tablet captures
- **social/** — Instagram square and story, Pinterest pin, X header, Facebook cover
- **web/** — a ready-to-host landing page and privacy policy
- **press/** — this document, as HTML and PDF
- **COPY.md** — store descriptions, taglines, social posts, ASO keywords, release notes

Screenshots and graphics may be reproduced freely in coverage of the app.
